Headquarters, Washington, DC have made an
inference between Superfund sites in white
communities and minority communities when it
comes to monitoring site preparation, community
input and cleaning up and maintaining superfund
sites ~~and~~ following consent decree orders
in management of Superfund sites. In filing
this complaint we would like to have EPA do
on site visits and correct the hazardous material
that has exposed myself and my employees to
safety and health care issues. Five employees
have been hospitalized because of this EPA
superfund site.
